Drills

Race Walking

Outcomes

1. Uses
2. When and where
3. Examples

Drills

- Skill learning
- Skill reinforcing or developing
- (Fault correction)
- Mobility
- Development of general and functional conditioning

Skill learning - walks

- Long arm walking (Stride length)
- Bent arms (Arm action)
- Elbow strikes (Arm action)
- Rolling feet (Foot placement)
- One leg calf push (Foot action)
- Fast heel catch (Foot action)
- Boxing arms (Posture)
- Arms over head walking (Posture)
- Short stride, long stride, short stride (Cadence)
- Walking on a line (Foot placement/hip)
- Walking cross over line (Hip action)
- Pairs arms (Arm action)

Skill development– walks

Feet

Rolling feet walks – short strides – concentrate on smooth role
